Better Bucket

Patented ergonomically designed feeder is excellent for horses, cattle and livestock. Angular design better accommodates animal's facial structure, allowing a more natural eating manner. Tapered sides funnel feed toward back of bucket which makes feed and grain more accessible and reduces animal behavioral problems.

Flat back provides stability against a wall or fence. Fits on a flat wall with either a traditional wall bracket or snap hook. Durable, impact resistant, high-density polyethylene construction with smooth finished edges and heavy-duty handle.

Metal Feeders

168779 Basic Goat & Sheep Feeder
L 44.5" x W 31.5" x H 45.13"
3" grid helps reduce nearly all forage and hay waste. Research studies show goats eat easier out of a 4" trough - ours is specifically designed with this in mind. It is important to keep grain, hay, and forage waste off the ground as goats are close grazers. By using this feeder there is less opportunity for ingestion of parasites. Loose hay and leaves fall into the bunk, not on the ground, for reduced waste and healthier goats and sheep. Holds medium size square bales. 18" from ground to trough. Accommodates up to 10 mature sheep or goats.

168779

168830

168793 Classic 2-in-1 Feeder
L 21.5" x W 13.06" x H 23.25"
Unique hook over feature allows universal mounting even on hurricane fencing. Keeps grain, hay and forage waste off the ground - less opportunity for ingestion of parasites. Compact design saves on space - combination hay and grain feeder. Accommodates two flakes of hay.

168830 Hay Grazer
L 28.13" x W 13.38" x H 27.88"
Provides a more natural, comfortable way for your horse to feed. Requires horse to eat in a slower, healthier manner - reduces boredom. Keeps hay off the ground, reducing waste and saving you money. Mounts to a fence or wall at ground level. Less dust inhalation for horse. Stores hay in a cleaner, more compact way. Spring loaded to recreate natural grazing.

FP10GREEN

FP10GREEN 10 Quart Tire Feeder
